Summary

Final-year B.Tech student and Full-Stack Developer with hands-on experience building end-to-end web applications using Python, Java, React.js and MySQL. Experienced in developing secure backends, REST APIs, and responsive front-end interfaces, with practical exposure to integrating data-driven and ML-powered features into web systems. Strong fundamentals in DSA, databases, and system design, with a focus on writing clean, scalable, and production-ready code.

Education

- **Bachelor of Technology** Aug 2022- May 2026 SR International Institute of Technology

PROJECTS

Improving Digital Forensic Security: A Secure Storage Model with Authentication and Optimal key generation using encryption (October,2025)

- Developed a secure storage framework for digital forensic data using advanced encryption and authentication techniques.
- Implemented optimal key generation to enhance data confidentiality, integrity, and user authentication. The model ensures secure evidence handling, preventing unauthorized access and tampering during forensic investigations
- Tools & Technologies: Java, HTML, CSS, Java Script

DL-IDS a deep learning-based intrusion detection framework for securing IoT (Nov 2025 - Present)

- Designed and implemented a Deep Learning-based Intrusion Detection System (DL-IDF) using a Convolution2D CNN to automatically classify IIoT network traffic, achieving 99% detection accuracy on the UNSW-NB15 dataset
- Improved intrusion detection performance over traditional AE-CNN and ML models by reducing false positives and enhancing feature extraction, enabling scalable and reliable security for Industrial IoT environments
- Tools & Technologies: Python, NumPy, Pandas, Matplotlib, Seaborn, Flask (web interface), VS Code

Technical Skills

Programming Languages: C++, Python, Java, HTML, CSS, SQL

Frameworks: React.JS

Databases: MySQL

Tools: GitHub, VS Code

Coursework: Problem Solving and Computer Programming, Data Structures and Algorithms, Database Management Systems

Soft / Interpersonal Skills

- Self-Confident
 - Out-of-the-box-thinking
 - Willing to work with group
 - Leadership Skills
-

Achievements

- **Completed Virtual Internship** from AcmeGrade on Artificial Intelligence
- **Participated in workshop** on Artificial Intelligence & Cloud Computing conducted by SR International Institute of Technology
